DETAILED ACTION

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 10-15 and 19-20, drawn to method for producing module.

Group II, claim(s) 16-18, drawn to a gripping and transfer device.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: because Group I invention does not require to a gripping and collective transfer device 9 as required by Group II invention (see claim 16). Further, Group II invention has utility by itself such as for producing an electronic module in the shape of a ball housing combining a network of interconnection, etc., as recited in claims of the Group II. For the reasons above, Groups I and II are held to be lack the same technical features such as what requires for one does not require for other and each has different modes of operation, different functions, and that as the discussion above.

2. A telephone call was made to Mr. William E. Anderson II on 3/15/2003 to request an oral election to the above restriction requirement, but did not result in an election being made. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
